

CE Certification Process

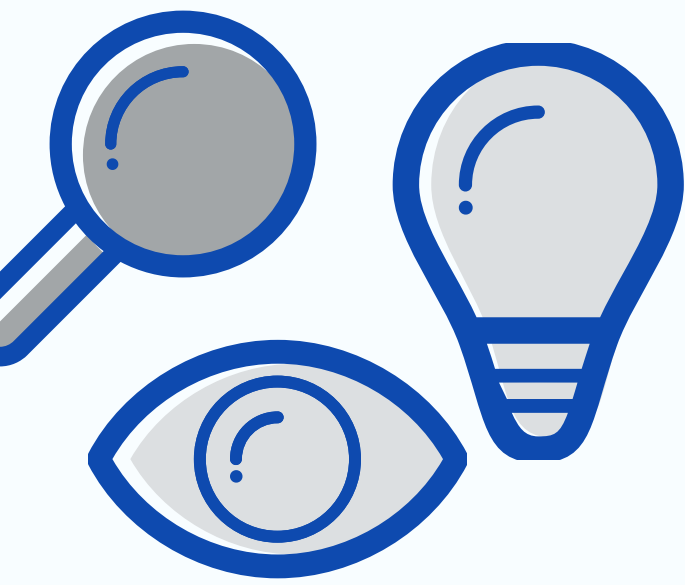

When clients need a product EU Type Examination Certificate for CE marking, the process involves these main steps.

The Application

Client briefs us of what they want and need.
Project timelines are being set as well.

.....

STEP
01

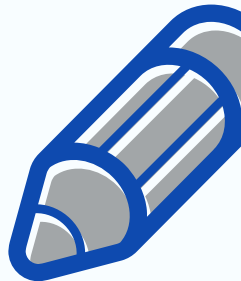

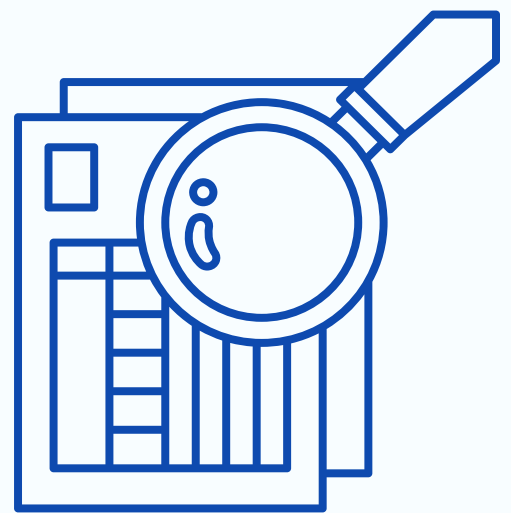

STEP
02

The Submission

Our team gathers all relevant documents of the technical file

.....

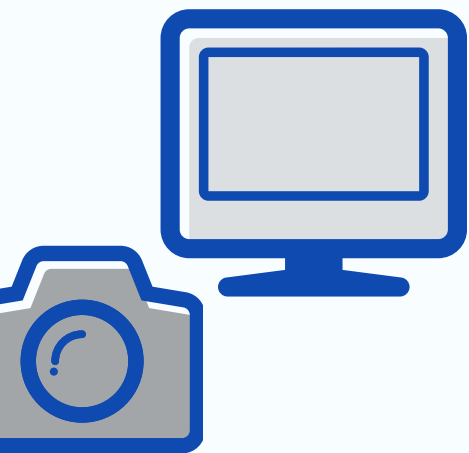

The Test Reports

If necessary, test samples or additional information to complete the file will be requested.

.....

The tests are carried out in a subcontracted laboratory designated by ALIENOR CERTIFICATION

STEP
